

Jensen Delivers

*USPS Approved **STD-4C**
Multi-Tenant Mailboxes*

Jensen Delivers

It's all about delivery.

Jensen delivers reinforced stainless steel multi-tenant USPS Approved STD-4C mailboxes with Jensen's exclusive DOUBLE-HEIGHT compartments in the sizes, colors and accessories you want.

Jensen delivers...mailboxes constructed with more stainless steel and heavy-gauge aluminum components than competition for superior strength, corrosion resistance and exceptional indoor and outdoor durability.

Jensen meets and exceeds USPS STD-4C compliancy that is mandatory on all new constructions and major renovations as of October 5, 2006.

Jensen delivers features and benefits:

- More stainless steel components than the competition
- A wide stocking inventory on popular models
- Numbers and letters can be customized to 6 digits
- USPS-1172 910A lock with three keys
- Heavy-gauge stainless steel tenant doors
- Tamper-resistant parcel lock doors
- Rugged, corrosion-resistant weatherproof powder coat finish resists scratching and vandalism
- Stainless steel hinges
- Extruded aluminum and stainless steel frame

- 1-to-10 parcel locker-to-tenant compartment ratio, in compliance with new USPS parcel locker requirement
- Meets new compartment form factor minimum size requirement of 3"h x 12"w x 15"d

- Superior Top Frame design requires less time to service or customize Tenant Door Layout in Master Doors
- Heavy-gauge Master Doors
- Master loading doors designed with vertical interlocking overlap seams to increase strength and help prevent prying
- Solid aluminum mail slot frame similar to High Security CBU design protects adjacent customer compartment and collection compartment
- USPS Arrow Lock door with quick release Master Door latch for easy access by Postal carriers
- Eliminates the vertical form factor 15"h x 5"w x 6"d design
- Strengthens security requirements for the entire receptacle
- Standardizes and improves tenant compartment lock design
- Testing requirements verify acceptability for both indoor and outdoor use
- Meets quality management systems requirement for all USPS approved mailbox manufacturers
- ADA compliant

Jensen Delivers

Value

More stainless steel means more secure, more durable mailboxes at a price comparable to less robust materials.

Security

Stainless steel equals security. No other company reinforces its STD-4Cs with as much stainless steel for superior anti-theft and anti-vandalism performance.

Quality

ISO 9001-2100 certified, state-of-the-art facilities manufacture STD-4Cs that meet and exceed USPS requirements for security, durability and high strength material content.

Variety

A wide inventory of popular sizes, a variety of customizable options and a selection of colors such as Gold, Silver, Postal Grey, Black, Sandstone, White and Bronze.
